MEMORANDUM FOR: Special Assistant for Strategic Arms Talks

SUBJECT: Ballistic Missile Team Assignment

I and the members of the Ballistic Missile Team consider the task assigned to the team to be impossible of accomplishment in the time allocated for a meaningful result. This is to notify you, therefore, that all the questions posed will not be answered by the deadline you set, and that many of the questions for which information is provided will be answered only in part. Please feel free to pass these remarks to  if you think it desirable.
